

Ochre Park School

Learning together

Our School

Located in the town of Redwater, Ochre Park School offers a range of engaging programs to students from Headstart to Grade 4. Our school uses a variety of learning tools and approaches to support different learning styles, including using current technology. We focus on strong reading skills and literacy.

Parents and the community are regularly involved in the learning process. We teach students to become valued citizens who are creative, critical thinkers and lifelong learners. True to our motto of "Learning Together," parents, staff, students and the community are partners who learn and work together along the road to success. Our school received national recognition and an award for our Generations United Seniors Project.
