## Did you know?

- Sturgeon Public School Division has a Conflict Resolution Procedure called [Focused and Effective Communication](#). This is an interest-based dispute resolution approach for dealing with communication and challenges between internal and external stakeholders.

To maintain safe, caring, healthy and respectful learning and working environments, open communication between all parties is essential. The success of all students is the guiding principle for all dispute resolution at the school and division level. When differences of opinion occur, the most effective method to achieve resolution is direct communication between the parties involved. It is in the best interest of all parties to resolve disputes respectfully and in a timely manner. This procedure establishes the Division's process for open communication and dispute resolution. A flow chart can be viewed [here](#).
